

*Oh yeah!!! Almost forgot. Now how do you get started?*

We've talked about everything pertaining to OTR, but failed to demonstrate actually HOW to get started? Actually, that was on purpose. Nor originally. But after the manual took on a life of its own, we knew this is how the story would end.

You needed to have the world map of OTR and understand where the destination was before you could take your first step. Okay. We've held your hand all the way through to this point. So take a look at how to get started, and enjoy the journey. Peace.

*Okay. "Peace" was not the best way to close that paragraph. It sounded better in my head. I heard it kind of like, "Puheeeesssee!" ... with a mic drop. That still doesn't explain why I'm typing my thoughts here as I complete this manual. Lot's of coffee and delirium from all of this writing is the culprit. Yeah. That's it.*

Oh my! Let's carry on!
