

Thank you for your interest in Clear® Solutions.

Please find below a talking point summary of product highlights for Clear® Solutions. We look forward to playing a role in your company's efforts in streamlining data flow, increasing compliancy and efficiency, and providing modern solutions for mobile and web platforms.

What is Clear® Solutions?

Clear® Solutions is a custom designed platform for healthcare data management. The platform is fully scalable which allows for a variety of products and services to be offered. Clear® Solutions is accessible through the internet and through custom mobile applications (at this time iPhone/iPad only) and is tailored to meet your company's needs.

How can Clear® Solutions fit my company's needs?

Clear® Solutions offers an online and mobile solution for provider & health plan directories today and will begin to offer point-of-sale online enrollment via Apple's iPad later this year.

What features are available with Provider & Plan Directories?

- Find health plans in which each PCP participates
- Find health plans in which each Specialist participates
- Find levels of participation for each PCP/Specialist within each plan
- Search by PCP, Specialist, Specialty, Plan, or Zip
- A modern and intuitive web portal that is branded with your company logo
- Can be deployed on company's current website through our API, or accessed via our website
- Free-to-download iPhone/iPad app with the same functionality, branded with your company logo
- Utilizes cloud server architecture for maximum reliability, scalability and backup redundancy
- No hardware to buy ever

The Simple Pricing Advantage

Simple pricing means peace of mind. No out of pocket server costs. No additional consulting fees. No hidden fees ever. Our pricing model includes everything required for full product roll out of Clear® Solutions and continued service, support and maintenance during the product's lifespan.
